¹ Annual point-to-point and 2-year point-to-point crediting methods are subject to an allocation charge, deducted annually from the contract accumulation value and guaranteed minimum value (in most states). The current allocation charge percentage is 0%. After contract issue, the allocation charge percentage can only change when specified criteria are met, and can never be greater than the maximum allocation charge percentage of 2.5%.

² Index not available in Iowa.

³ Not available in New Hampshire.

The rates are guaranteed for the length of the crediting period. They are declared at issue and at the end of the crediting period. The minimum monthly cap for the monthly sum with cap crediting method is 0.50%. The minimum annual cap for the annual point-to-point with cap crediting method is 0.25%. The maximum annual spread for the annual point-to-point with spread crediting method is 12%. The minimum participation rate for the annual point-to-point with a participation rate and the 2-year point-to-point with a participation rate crediting methods is 5.0%. The minimum interest rate is 0.40%.

The premium bonus and interest bonus are credited only to the Protected Income Value. To receive the PIV, including the bonus, the contract must be held for at least 10 contract years, and then lifetime income withdrawals must be taken. You will not receive the bonuses if the contract is fully surrendered or if traditional annuitization payments are taken. If it is partially surrendered the PIV will be reduced proportionally, which could result in a partial loss of bonuses. Income withdrawals are considered partial withdrawals and are subject to ordinary income tax and, if taken prior to 59½, a 10% federal additional tax. Because this is a bonus annuity, it may include higher surrender charges, longer surrender charge periods, lower caps, higher spreads, or other restrictions that are not included in similar annuities that don't offer a bonus feature.

¹ Annual point-to-point and 2-year point-to-point crediting methods are subject to an allocation charge, deducted annually from the contract accumulation value and guaranteed minimum value (in most states). The current allocation charge percentage is 0.95%. After contract issue, the allocation charge percentage can only change when specified criteria are met, and can never be greater than the maximum allocation charge percentage of 2.5%.

The rates are guaranteed for the length of the crediting period. They are declared at issue and at the end of the crediting period. The minimum monthly cap for the monthly sum with cap crediting method is 0.50%. The minimum annual cap for the annual point-to-point with cap crediting method is 0.25%. The maximum annual spread for the annual point-to-point with spread crediting method is 12%. The minimum participation rate for the annual point-to-point with a participation rate and the 2-year point-to-point with a participation rate crediting methods is 5%. The minimum interest rate is 0.10%.

Both the premium bonus and interest bonus are credited only to the Protected Income Value (PIV). To receive the PIV, including the value of these bonuses, lifetime withdrawals must be taken. The PIV is not available as a lump sum. You will not receive these bonuses if the contract is fully surrendered or if traditional annuitization payments are taken. If it is partially surrendered the PIV will be reduced proportionally, which could result in a partial loss of bonuses. Lifetime withdrawals are considered partial withdrawals and are subject to ordinary income tax and, if taken prior to 59½, a 10% federal additional tax. Because this is a bonus annuity, it may include higher surrender charges, longer surrender charge periods, lower caps, higher spreads, or other restrictions that are not included in similar annuities that don't offer a bonus feature.
