## **Easy Steps to Complete and Submit Applications**

After logging into FireLight, follow the easy steps to submit applications electronically.

**Form Entry:** Integrated business rules automatically choose correct application forms based on state and product and highlight required data fields, easing and expediting the application process.

**Signatures:** When you complete the application, gather all required signatures prior to submission. Multiple signing options are available through FireLight.

**Finalize:** Under **Other Actions**, you can view/print the application, and see application summary, requests, and history.
